# WINE LIBRARY

## Un esaltante gioco di riflessi

Il luogo ideale dove accogliere le eccellenze vitivinicole offrendo le condizioni ottimali per la miglior conservazione e valorizzazione delle bottiglie. Linee pulite, supporti trasparenti, illuminazione a led lungo le porte, interni a specchio, maniglie in acciaio inox e laminati moderni sono l'espressione di un design moderno ed elegante che garantisce massimo risalto all'alta qualità dell'offerta enologica.

## Eye-catching reflection effects

Here is an ideal way to display bottles and ensure exactly the right conditions for preserving and enhancing excellent wines. Clean lines, transparent bottle supports, LED door lighting, mirror-finish interiors, stainless steel handles and the latest laminates combine to embody a modern, elegant design that will add prestige to any high quality wine selection.

## Un jeu de reflets captivant

L'endroit idéal pour accueillir l'excellence vitivinicole offrant des conditions optimales pour conserver au mieux vos bouteilles et les mettre en valeur. Lignes épurées, supports transparents, éclairage LED le long des portes, intérieurs miroirs, poignées en acier inoxydable et stratifiés modernes, autant de détails qui sont l'expression d'un design contemporain et élégant qui garantit une mise en valeur optimale de la très grande qualité de l'offre œnologique.

## ISOLA

## ISOLA 4V

### Visibilità a 360°

L'esposizione utile estremamente ampia, con i led (2700°K) posizionati lungo il perimetro della porta e gli interni a specchio mettono in risalto al massimo le bottiglie.

### All-round visibility

The Wine Library's wide display area features LED lights (2700°K) along the perimeter of the door as well as mirrored internal walls, creating a striking effect for the ultimate bottle display with a 360° view effect.

### Visibilité à 360°

La vaste surface d'exposition, les LED (2700°K) placées sur tout le pourtour de la porte et l'intérieur miroir participent à la mise en scène des bouteilles.

## Formati modulari

Disponibilità di scelta tra due diverse altezze del modulo, moduli a due oppure a tre porte. Ogni modulo è dotato di un sistema di gestione indipendente della temperatura e dell'umidità (optional) nel singolo vano refrigerato. Porte vetro fronte/retro o retro chiuso con interno in acciaio inox, finitura a specchio.

## Modular size options

Two height options and two or three door models are available. Each unit is equipped with a stand-alone temperature and humidity (optional) control kit for the refrigerated compartment. Front/rear doors or a closed back are also options, along with internal mirrored stainless steel.

## Formats modulaires

Choix possible entre deux hauteurs de modules et modules à deux ou trois portes. Chaque module est équipé d'un système de gestion indépendant de la température et de l'humidité (en option) dans chaque compartiment réfrigéré. Portes en verre avant/arrière ou arrière fermé avec intérieur en stratifié miroir.

## Rivestimento

La struttura del mobile è rivestita in laminati "metal" (873) o "soft touch" (720, 718).

I telai delle porte sono in alluminio anodizzato grigio o nero. Optional: è possibile scegliere altri colori per il rivestimento in laminato, ma il telaio della porta rimane anodizzato grigio o nero.

## Linings

Cabinet structure covered in "metal" (873) or "soft touch" (720, 718) laminates.

Door frames are in grey or black anodised aluminium.

Optional: other laminate covering colours can be specified, but door frames are available only in anodized grey or black.

## Revêtements

La structure du meuble est habillée de stratifiés "métal" (873) ou "soft touch" (720, 718).

Les châssis de portes sont en aluminium anodisé gris ou noir.

Option: choix possible d'autres coloris pour le revêtement en stratifié, mais le châssis de la porte reste anodisé gris ou noir.

# WINE LIBRARY

Spazi interni più ampi e facilmente personalizzabili

Grazie all'innovativo sistema di refrigerazione gli interni sono privi della piastra evaporante. Viene aumentata la capienza di bottiglie e l'interno a specchio crea un effetto di visibilità a 360°. Possibilità di disporre le bottiglie in verticale, in obliquo o in orizzontale, a seconda delle preferenze. Su ripiani inox (R) o in plexiglass forati (P), su tubi in acciaio (T, A) o su eleganti culle trasparenti in plexiglass (C).

Internal system and custom internal layout

The innovative, ventilated refrigeration system in the Wine Library maintains the correct temperature without using an evaporator and consequently gaining interior space. Bottles can be displayed in a variety of positions, according to individual needs and tastes: vertically, with stainless steel (R) or plexiglass (P) shelves, on an incline, with stainless steel tubes (A) or horizontally (T), with plexiglass supports (C).

Intérieurs propres et agencement personnalisable

Grâce au système de froid innovant, les intérieurs restent propres sans la plaque d'évaporation. La capacité en nombre de bouteilles est augmentée et l'intérieur miroir crée un effet panoramique à 360°. Possibilité de disposer les bouteilles à la verticale, inclinées ou à l'horizontale, selon vos préférences. Sur des étagères en inox perforées (R), à tubes en acier (T) ou sur d'élégantes berceaux transparentes en plexiglas (C).

## Temperature

La refrigerazione ventilata permette di scegliere il set preferito di temperatura interna. Impostazioni da 4°C a 18°C per ciascun modulo.

## Temperature

The temperature settings in this unit range from 4°C to 18°C, which can be set easily by the operator for each module.

## Temperature

Le froid ventilé permet de choisir une configuration de température intérieure préférentielle. Réglages de 4°C à 18°C pour chaque module.

(optional)

## Controllo digitale umidità relativa

Il controllo opzionale dell'umidità permette di mantenere un livello di umidità relativa maggiore del 50% e creare così l'ambiente ideale di conservazione del tappo della bottiglia e dell'etichetta.

## Relative humidity digital control

As an option, you can control and maintain the humidity level above 50%, in order to create the perfect storage environment for bottle corks and labels.

## Contrôle digital de l'humidité relative

Le contrôle optionnel de l'humidité permet de maintenir un taux d'humidité relative supérieur à 50% afin de créer un environnement idéal pour la conservation des bouchons de bouteilles ainsi que des étiquettes.

ECO FRIENDLY

## Risparmio energetico

Bassi consumi grazie alla illuminazione a led, spessore dei montanti di 5 cm, un sistema di controllo che ottimizza l'utilizzo del sistema refrigerante e alla porta in vetro camera basso emissivo.

## Energy efficient

With LED lighting, 50mm thick insulation, a 28mm thick low emissions, double-glazing glass door and a control system which improves the efficiency of the refrigeration equipment, energy consumption is quite low in this unit.

## Économie d'énergie

Faible consommation grâce à l'éclairage à LED, épaisseur des montants de 5 cm, un système de contrôle pour optimiser l'utilisation du système réfrigérant et à la porte en double vitrage à faible émissivité.

## Controllo da remoto (IoT)

Il controllo della macchina può avvenire da remoto utilizzando il modulo Wi-Fi opzionale e la piattaforma cloud.

## Remote control (IoT)

Wine cellar can be controlled remotely using an optional Wi-Fi module and the cloud platform.

## Contrôle déporté (IdO)

Le contrôle de la cave à vin se fait à distance grâce au module Wi-Fi en option et à la plateforme cloud.

Vetro interno a bassa emissività
